

Dear Deliverer,

**Thank you** for helping to deliver flowers. May we suggest that by calling ahead you will insure that someone will be there to receive the flower. If you choose not to deliver today, you may make the delivery at your convenience. Please do not leave the flower in a cold car that could cause its demise.

When delivering the flower, please inquire of the recipient or family to see if there is information the First UU community should be aware of. A call to the Society office is always welcome.

We hope that your participation gives you the same joy that we have when we participate in this annual project. Merry Christmas, Happy Holidays, with love, joy, and wishes for peace.
